

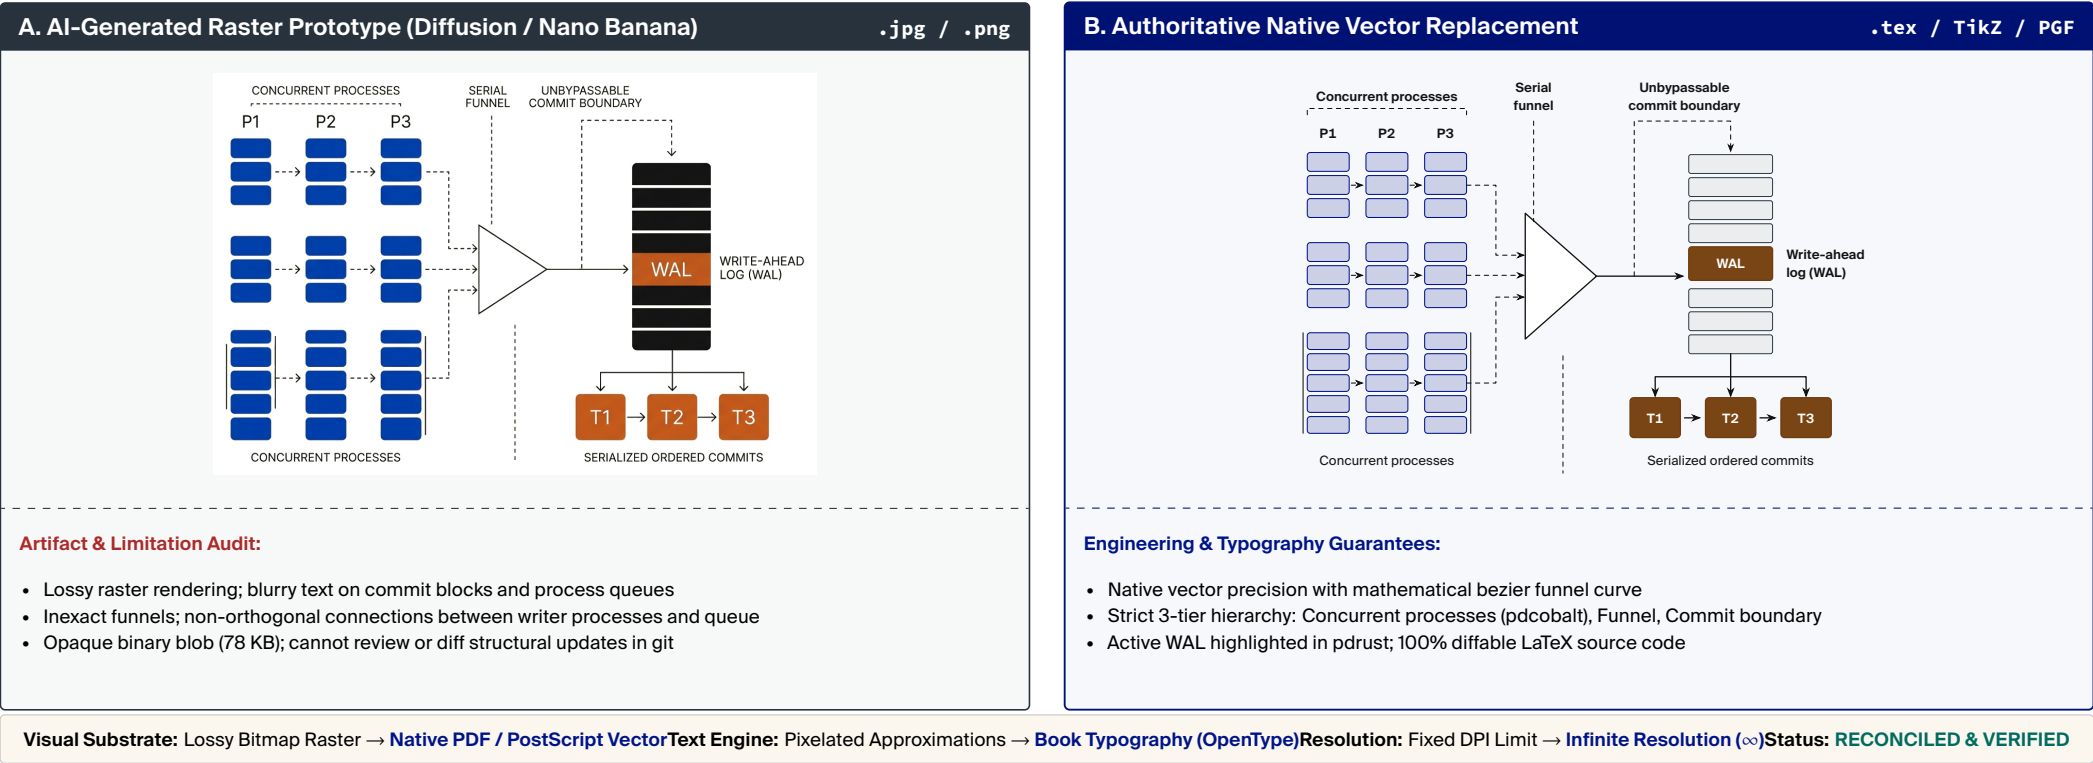

Figure 0.1 · Proposition 1 Mechanics: Serial Write Arbitration

A. AI-Generated Raster Prototype (Diffusion / Nano Banana)

.jpg / .png

ROOT AUTHORITY (C₀)

LONG LIFETIME

PERMISSION SCOPE

ORIGINAL CAPABILITY (C₀)

INTERMEDIATE DELEGATE (C₁)

SHORTENED LIFETIME

NARROWED SCOPE

DELEGATED CAPABILITY (C₁) [SUBSET OF C₀]

WORKER TASK (C₂)

TIGHTLY RESTRICTED LEAF PERMISSIONS

SUB-DELEGATED CAPABILITY (C₂) [SUBSET OF C₁]

Artifact & Limitation Audit:

- Fuzzy badge typography and illegible caveat signatures
- Inconsistent arrow spacing and arbitrary delegation hops
- No formal attenuation constraint check visible in source asset

B. Authoritative Native Vector Replacement

.tex / Tikz / PGF

Root authority (C₀)

Long lifetime

Permission scope

Original capability (C₀)

Intermediate delegate (C₁)

Shortened lifetime

Narrowed scope

Delegated capability (C₁) [subset of C₀]

Worker task (C₂)

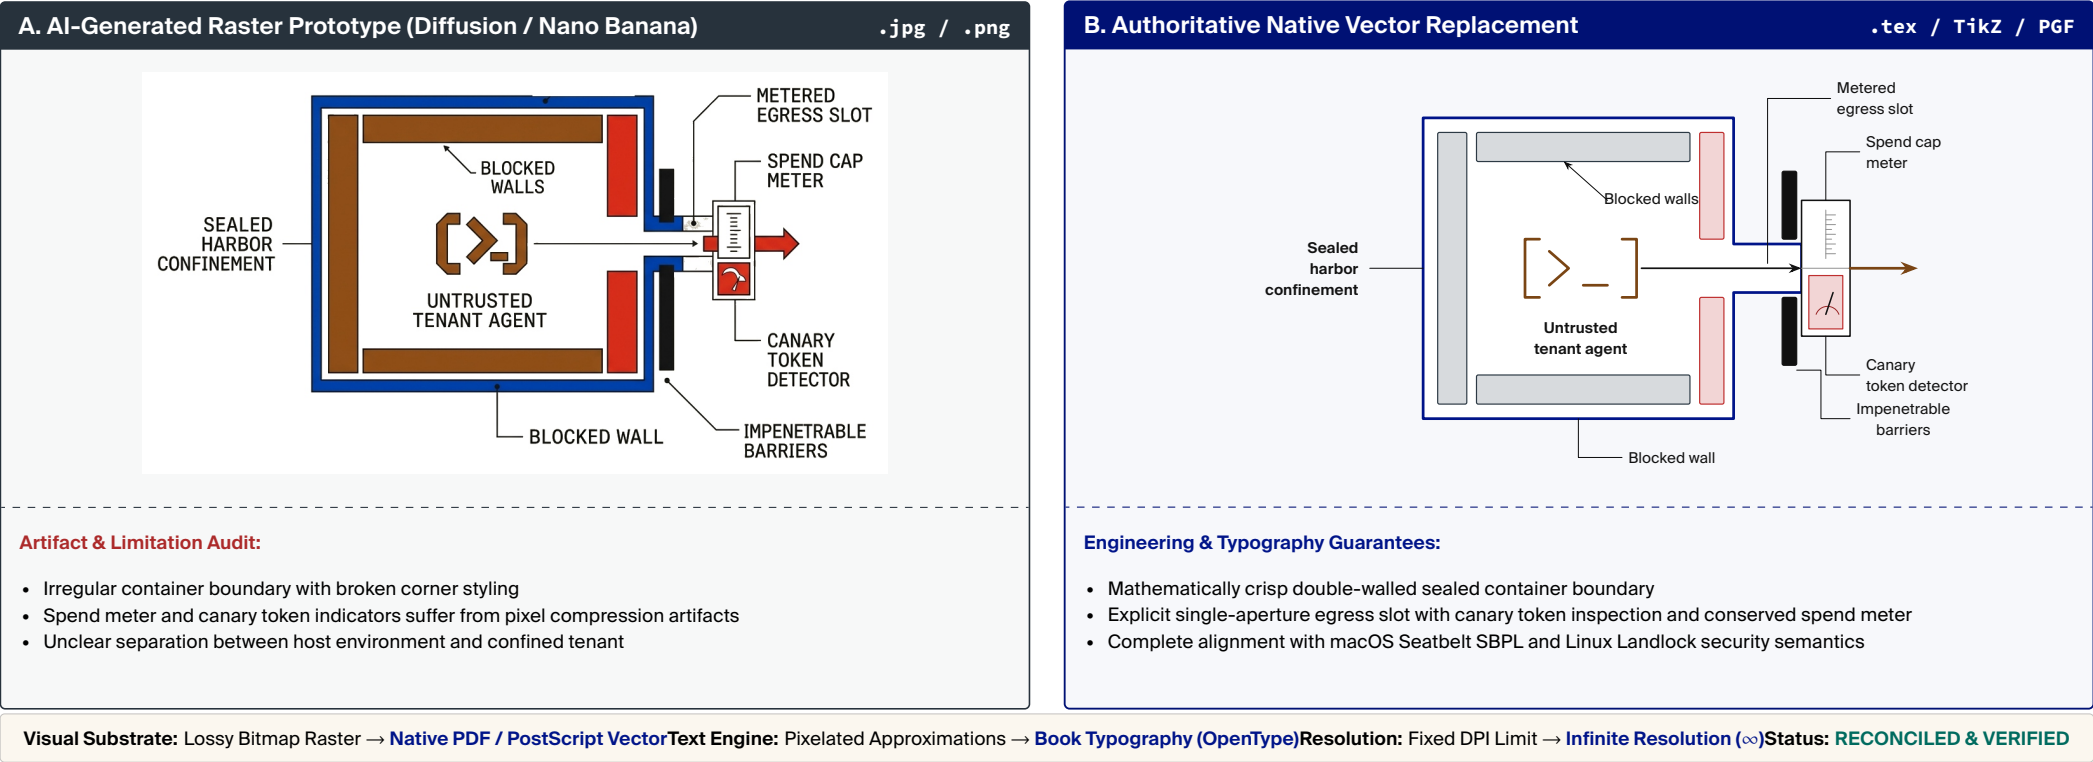

Tightly restricted leaf permissions

Sub-delegated capability (C₂) [subset of C₁]

Engineering & Typography Guarantees:

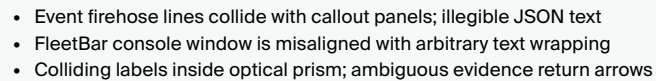

- Exact chained HMAC signatures with monotonic capability narrowing ($C_0 \supset C_1 \supset C_2$)
- Visual boundary enforcement: Attenuated tokens strictly subset parental scopes
- Systematic color-coding for root issuer, intermediary delegation, and leaf execution

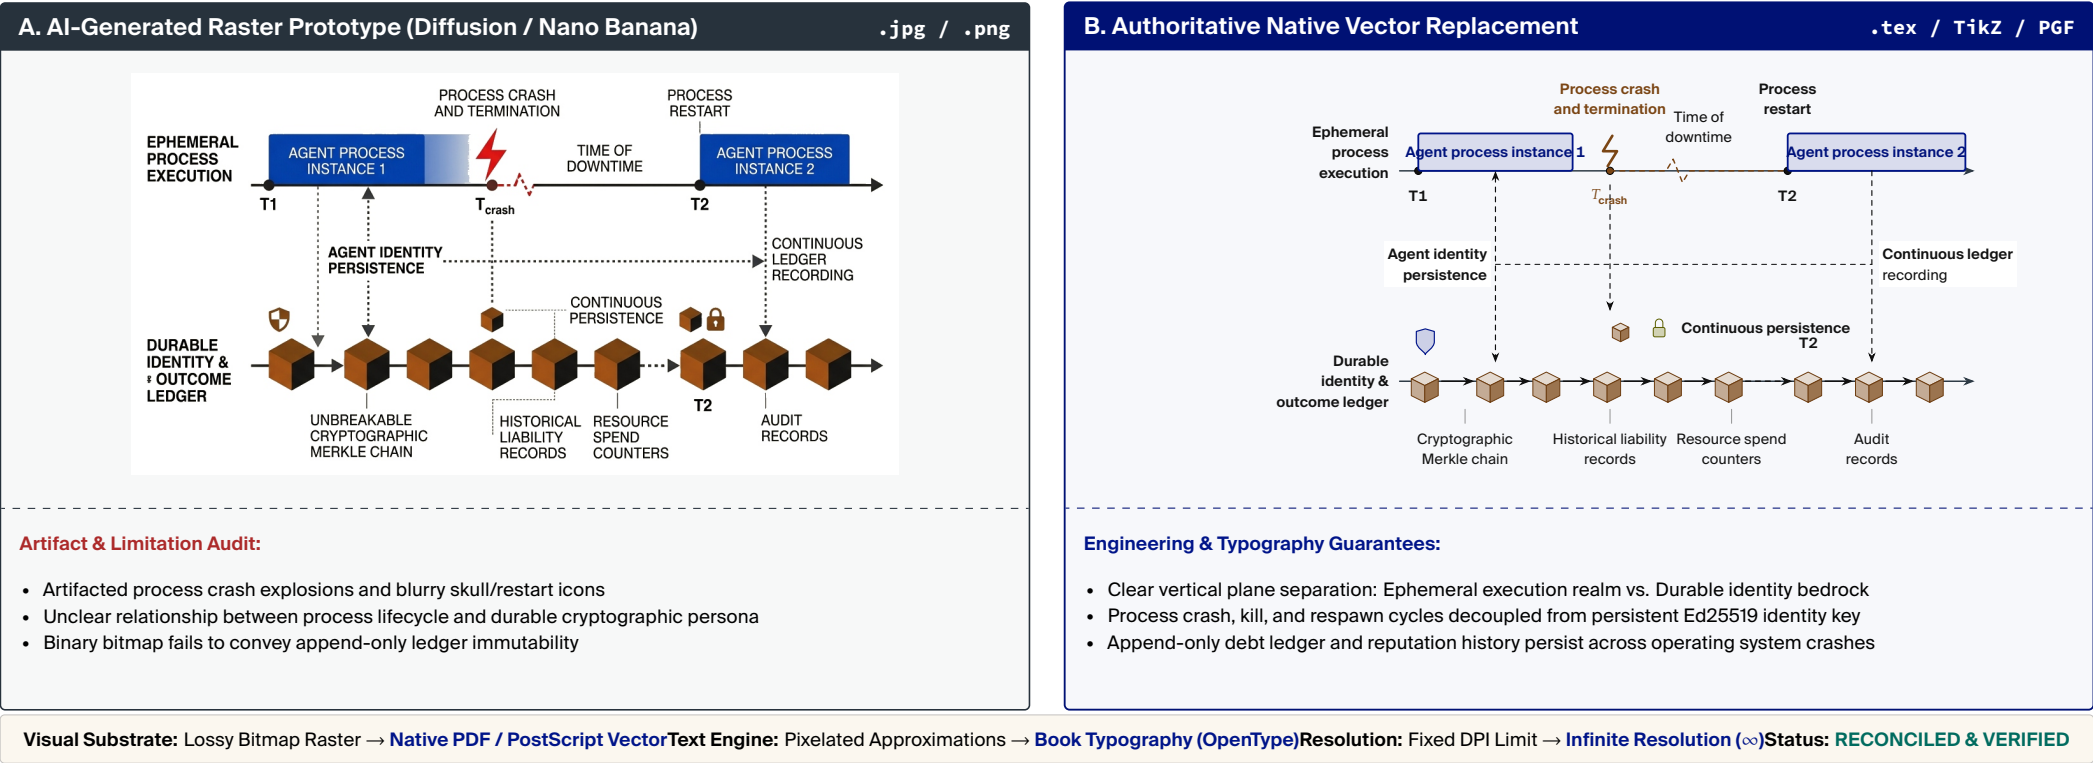

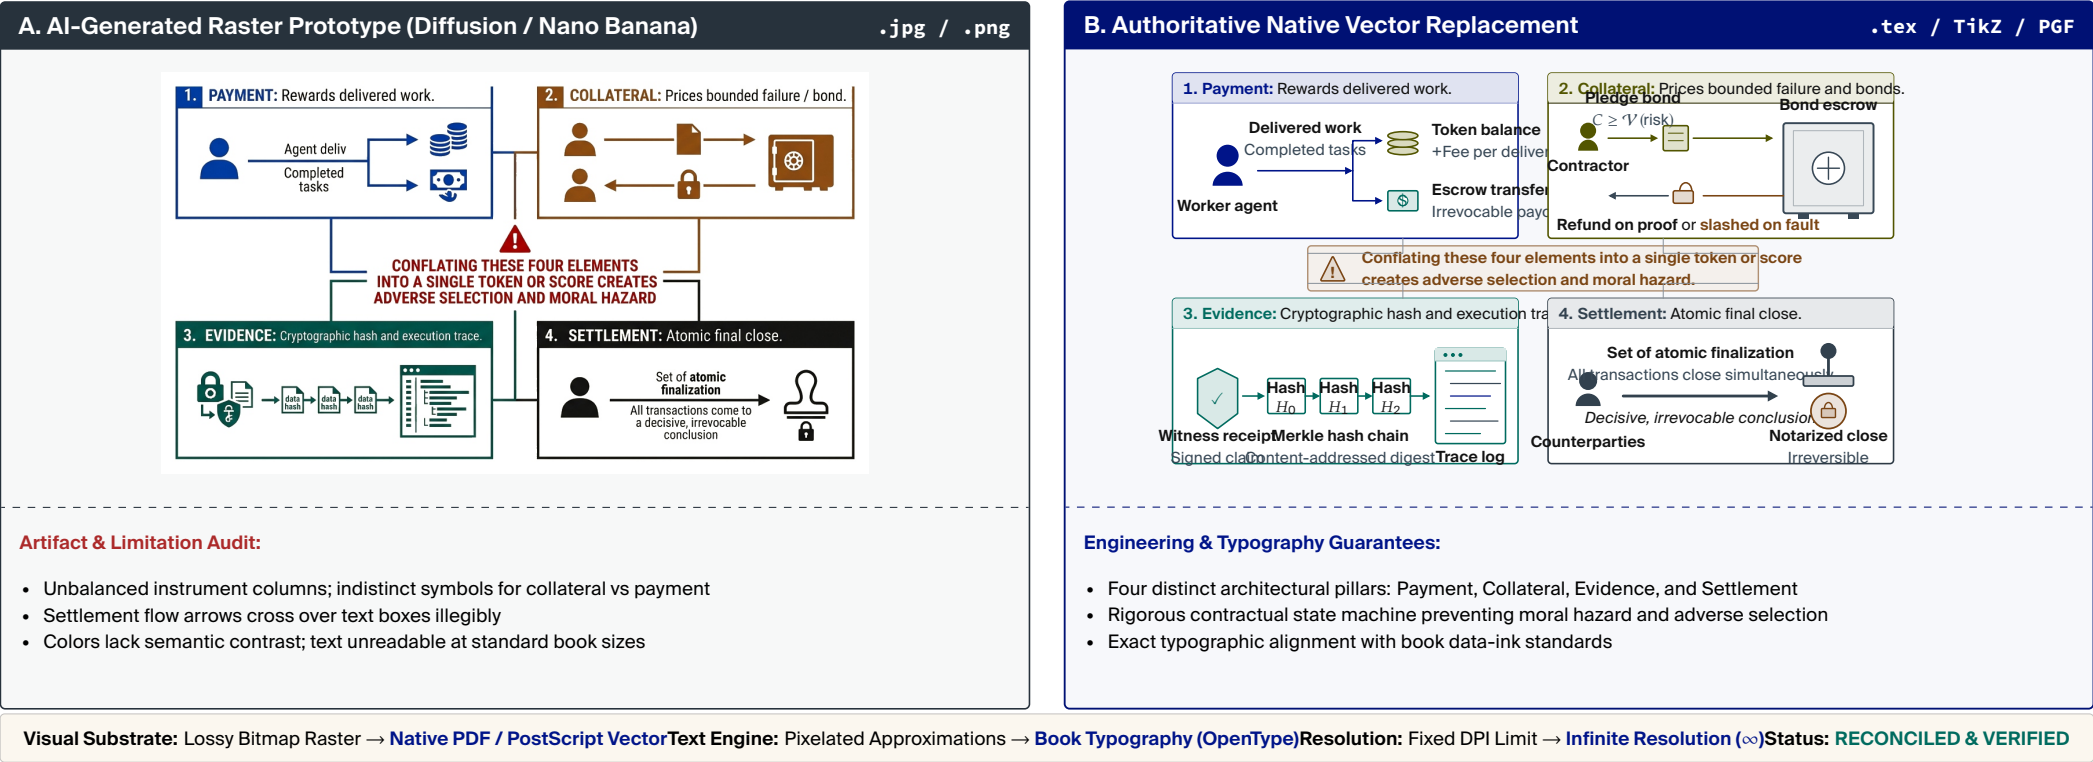

Figure 0.6 · Proposition 6 Mechanics: Four Separated Market Instruments

Section 0.1.3 · Classical Multi-Agent Theory · AgentSpeak(L) Semantics

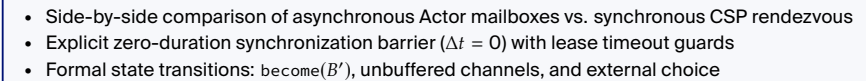

.jpg / .png

- Asymmetric lifelines with wavy paths and distorted mailbox queues
- Rendezvous barrier rendered as a fuzzy blob rather than an instantaneous synchronization
- Lack of formal notation for actor replacement behaviors (become)

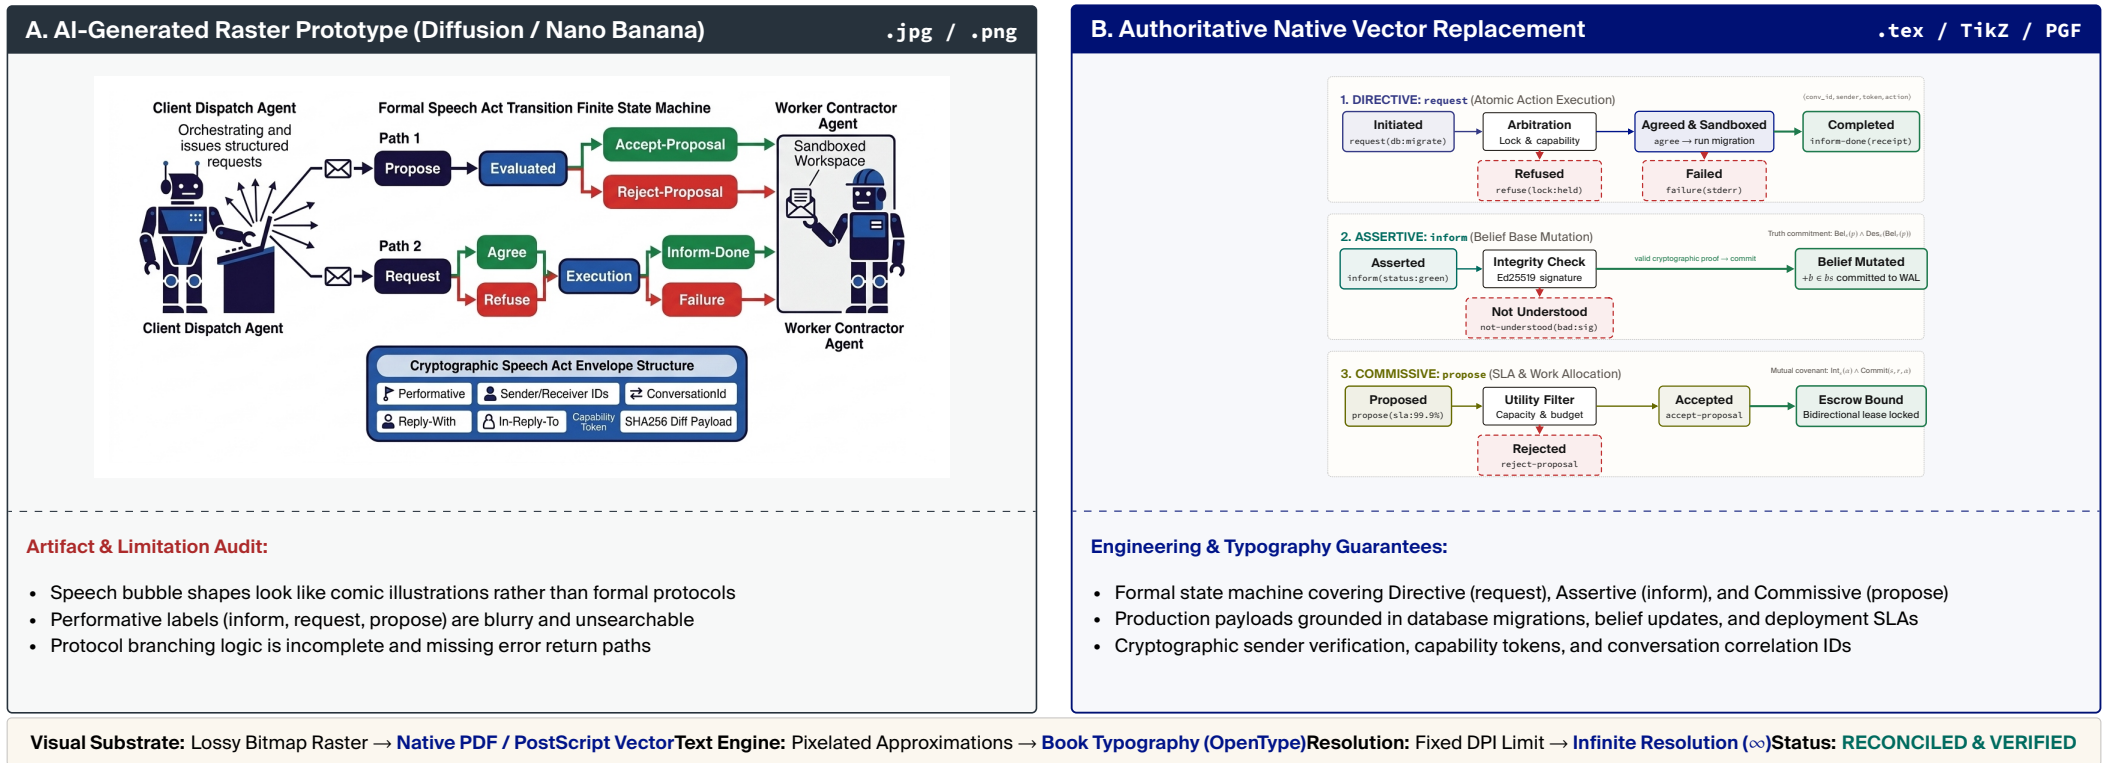

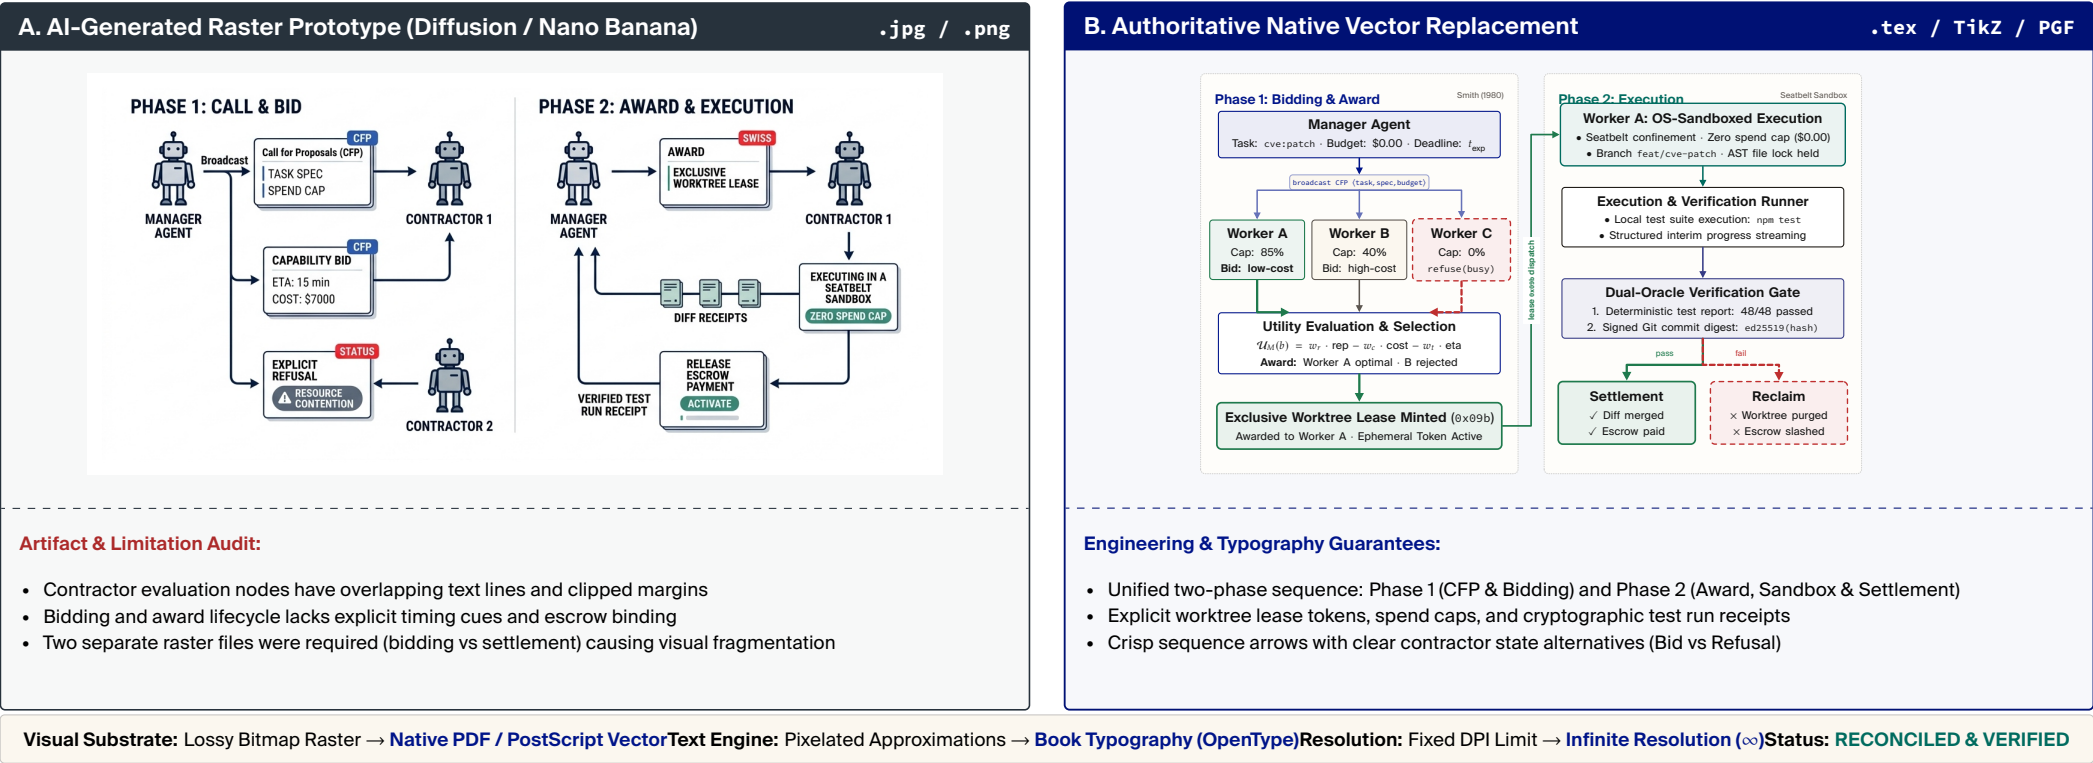

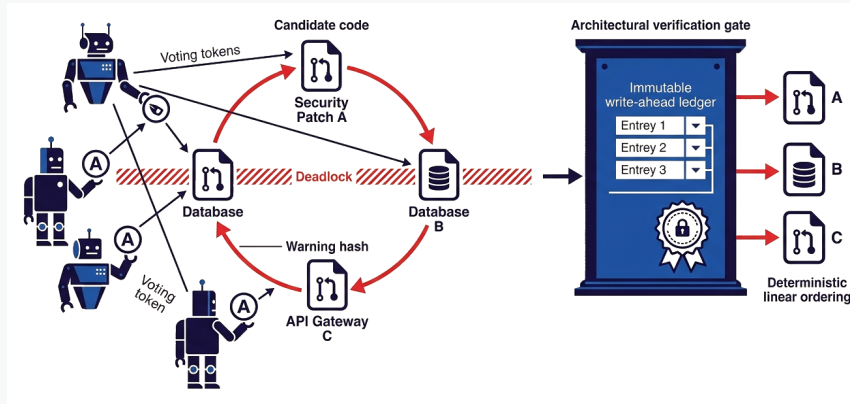

Figure 0.12 · Contract Net Protocol (CNP) Task Allocation Lifecycle

Section 0.1.8 · Social Choice & Game Theory · Arrow (1951)

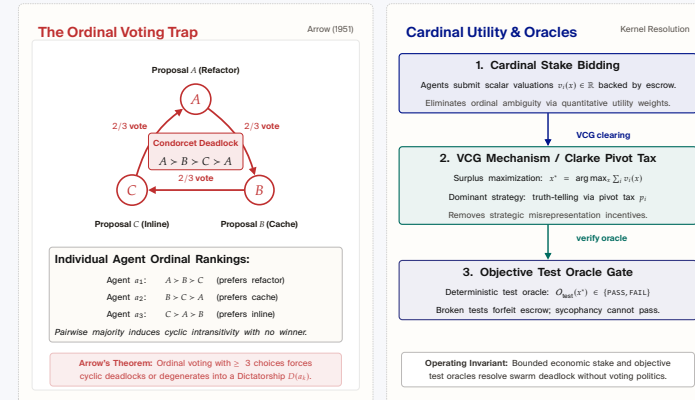

.jpg / .png

Artifact & Limitation Audit:

- Condorcet cycle triangle has jagged pixelated arrows
- Ordinal ranking tables suffer from raster compression blur
- Font weights and sizes do not match the surrounding textbook

.tex / TikZ / PGF

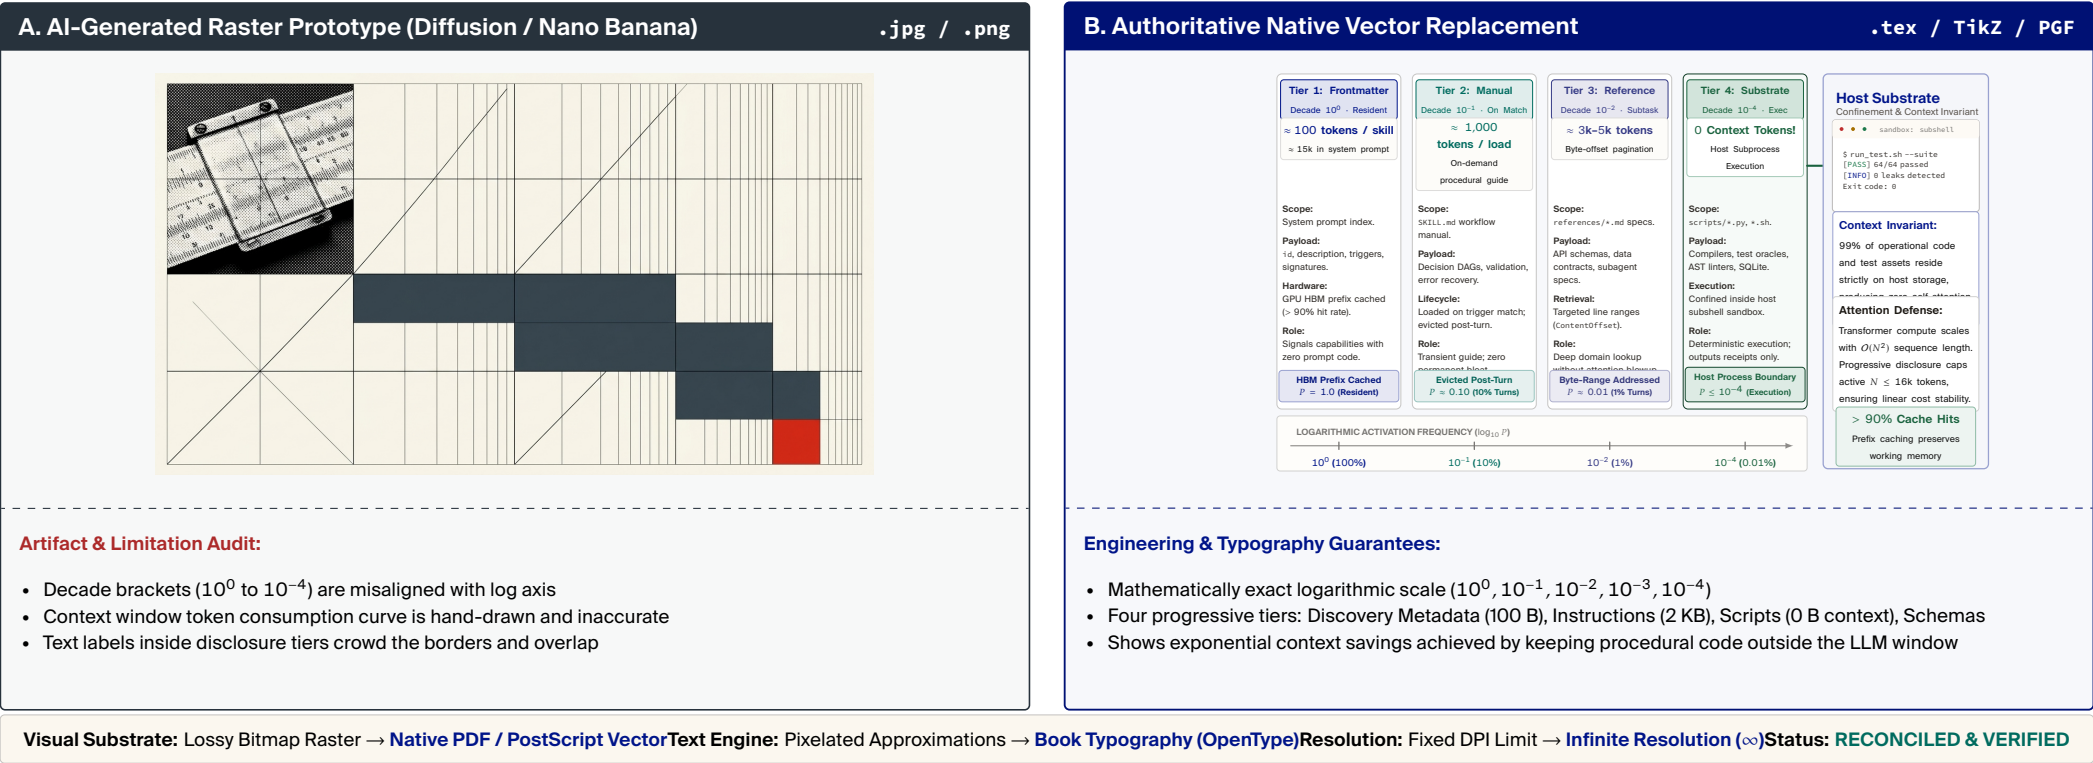

Engineering & Typography Guarantees:

- Clean geometric cycle ($A > B > C > A$) with circular cyclic arcs
- Crisp preference profile matrix comparing voter rankings across candidates
- Formal proof annotations showing why Port Daddy replaces ordinal voting with cardinal VCG clearing

Visual Substrate: Lossy Bitmap Raster → **Native PDF / PostScript Vector Text Engine:** Pixelated Approximations → **Book Typography (OpenType)**Resolution: Fixed DPI Limit → **Infinite Resolution (∞)**Status: **RECONCILED & VERIFIED**

Section 0.3.4 · Hooks & Interception · Claude Code & Giant Squid

.jpg / .png

- .tex / TikZ / PGF

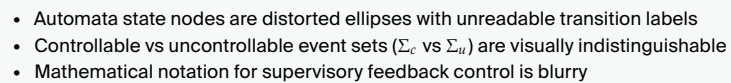

- Two distinct supervisory loops: Outer Session/Turn Lifecycle vs. Inner Agentic Tool Loop
- High-contrast hook interceptors: SessionStart, UserPromptSubmit, PreCompact, PreToolUse, PostToolUse, Stop
- Three real-world enforcement traces: Case A (Veto), Case B (Sanitization), Case C (Clean Commit)

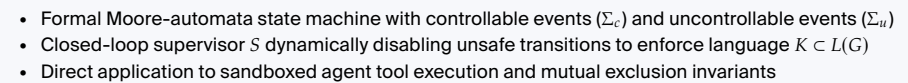

Visual Substrate: Lossy Bitmap Raster → **Native PDF / PostScript VectorText Engine:** Pixelated Approximations → **Book Typography (OpenType)**Resolution: Fixed DPI Limit → **Infinite Resolution (∞)**Status: **RECONCILED & VERIFIED**

.tex / TikZ / PGF

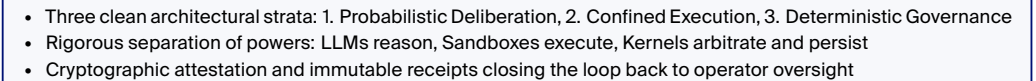

Visual Substrate: Lossy Bitmap Raster → **Native PDF / PostScript VectorText Engine:** Pixelated Approximations → **Book Typography (OpenType)**Resolution: Fixed DPI Limit → **Infinite Resolution (∞)**Status: **RECONCILED & VERIFIED**

A. AI-Generated Raster Prototype (Diffusion / Nano Banana)

.jpg / .png

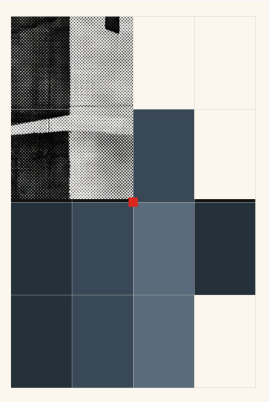

Artifact & Limitation Audit:

- Uncalibrated bright green blocks ('green psychosis') clashing with the book's palette
- Saturated neon tones distracting from the architectural seriousness of the volume
- Lack of grounding; felt like an arbitrary digital graphic rather than physical bedrock

B. Authoritative Native Vector Replacement

.tex / TikZ / PGF

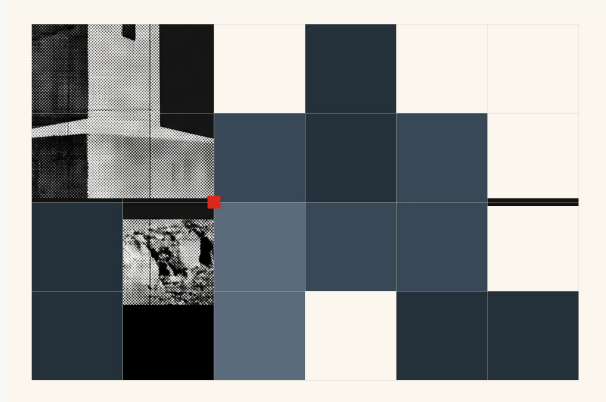

Engineering & Typography Guarantees:

- Mineral slate gray palette (#384856) harmonizing with Swiss book design language
- Stepped monoliths anchored upon coarse halftone foundational bedrock footing
- Uncompromising black datum line with precise red origin registration square

Visual Substrate: Lossy Bitmap Raster → Native PDF / PostScript VectorText Engine: Pixelated Approximations → Book Typography (OpenType)Resolution: Fixed DPI Limit → Infinite Resolution (∞)Status: RECONCILED & VERIFIED

A. AI-Generated Raster Prototype (Diffusion / Nano Banana)

.jpg / .png

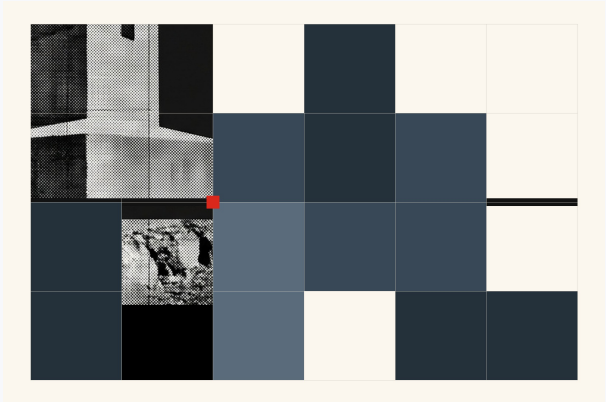

Artifact & Limitation Audit:

- Part 0 previously lacked an authentic full-spread section head plate
- Chapter 0 started abruptly without the monumental gateway present in subsequent Parts I-IV
- Missing visual anchor for the foundational pre-LLM and kernel gap theory

B. Authoritative Native Vector Replacement

.tex / TikZ / PGF

Engineering & Typography Guarantees:

- Full 3:2 landscape proportion (2100x1400) designed specifically for the pdslate verso spread
- Features the complete architectural motif: Bedrock footing, stepped slate towers, and red datum
- Fully registered in PROVENANCE.json with 0 test failures and zero external spend
